FOREWORD

The Department of Municipal Affairs takes pleasure in issuing the Annual Report of Municipal Statistics for the calendar year 1990, which is also the fiscal year of our municipal units.

The Report contains a great deal of statistical information relating the various municipal units of Nova Scotia. It is prepared and compiled in a uniform manner. Accordingly, it is possible to compare figures relating to one municipal unit with those of another municipal unit in Nova Scotia. For the same reason, it is usually possible to compare them with figures of municipal units in other provinces, but it must be remembered that there are differences in municipal administration between each province and these are sometimes substantial.

The Report indicates that as in recent years, assessments, tax levies and expenditures of our municipal units increased generally in 1990. This has been the trend in all levels of government and in the municipal units of other jurisdictions as well. It indicates, and this is important, that our municipal units generally continue to be in sound financial position.

I express my appreciation to the Clerks, Treasurers, Auditors, and other officials of the various municipal units who have provided information to enable us to prepare this report. I am grateful, also, to the officials of my Department who examine the information submitted to us, adjust it where necessary and compile it in form for publication.

Honourable Brian Young
Minister of Municipal Affairs

Halifax, Nova Scotia

INTRODUCTION

MUNICIPAL ORGANIZATION

The term "municipality" in Nova Scotia has two distinct meanings. In one sense it means all local governments, as is usual elsewhere in Canada. In the other sense, municipality means a municipality as constituted under the Municipal Act, and often referred to as a rural municipality.

The Province of Nova Scotia is geographically divided into eighteen counties; twelve of these constitute separate municipalities and the remaining six are divided into two districts or municipalities each, making a total of twenty-four municipalities. There are, in addition, thirty-nine incorporated towns and three cities each of which is geographically located within a county or district but forms no part of it politically and, except as to joint expenditure, is entirely independent of it; the county or district enjoys similar independence of towns and cities.

In addition, there are other organizations providing what are commonly considered to be municipal services. Within the rural municipalities, these include:

(1) village commissioners incorporated and operating under the Village Service Act for furnishing municipal services to a more populated area of a rural municipality. There are now twenty-six such village commissions.

(2) local commissions incorporated and operating under special Acts of the Legislature, generally for street lighting or fire protection; there are thirty-two of these organizations.

(3) rural fire districts, incorporated under the Rural Fire District Act to provide fire protection (presently thirteen).

(4) other special purpose forms of local government have been authorized by a number of statutes. A few rural municipalities have special legislation to regulate the provision of services to specific areas.

In a few cases also, commissions have been created in cities, towns and rural municipalities to operate municipal services such as hospitals, utilities, cemeteries and rinks. The village commissioners and at least some of the local commissions are authorized to levy taxes in addition to those collected by the municipality itself. We are able to include in this Report statistics of twenty-six villages and eight commissions.

Ann E. Janega
Deputy Minister

Halifax, Nova Scotia

INTRODUCTION

STATISTICAL HIGHLIGHTS

(1) The total taxable assessment of all municipal units in Nova Scotia for 1990 was approximately $26,809,000,000. This compares with approximately $23,147,000,000 for 1989. The increase of 15.8 percent is due to normal new construction and variations in market value reflecting demand and inflationary pressures.

(2) The total tax levy for all municipal units in Nova Scotia for 1990 was approximately $466,651,000. This is an increase of $38,282,000 or 8.9 percent, from the $428,369,000 tax levy for 1989.

(3) Tax collections have continued to remain high. The cities in 1990 collected an average 97.8 percent of their levy as compared with 100.1 percent for 1989. Towns on average collected 97.9 percent as compared with 98.4 percent in previous years. Rural municipalities collected 97.6 percent as compared with 99.1 percent in 1989. Note that in computing these figures, the amount of taxes collected in a given year includes taxes levied for the current year and also taxes levied in previous years that had not been collected prior to the year under examination.

(4) The total of outstanding taxes for all municipal units in Nova Scotia in 1990 was approximately $47,581,000 compared with $40,279,000 in 1989. Statutory reserve funds for uncollected and uncollectible taxes have been increased from $36,044,000 to $38,091,000.

(5) During 1990 municipal units in Nova Scotia issued and sold approximately $45,111,200 in debentures, an increase from the $28,122,700 issued in the previous year. The average cost of borrowing on bonds sold to the public was 12.05 percent.

(6) The total net debenture debt of all municipal units increased to approximately $288,690,000 as compared with $282,175,000 in 1989.

Finally, may I express our appreciation to the officals, both elected and appointed, of our cities, towns, rural municipalities and villages, whose co-operation has made this Report possible.
